

Accessing the Cost Comparison Tool

Anthem’s Cost Comparison tool is an internet-based self-service tool that contains personalized out-of-pocket cost information for many covered health care items and services.

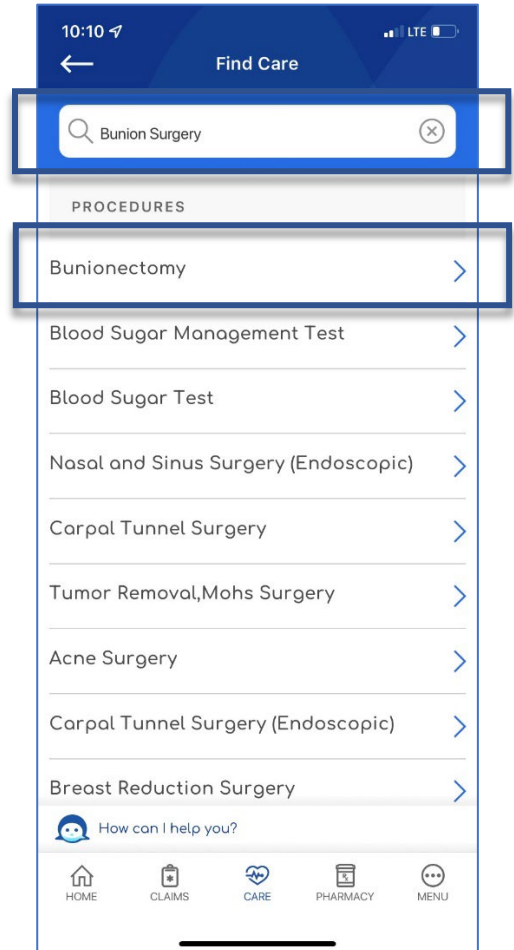

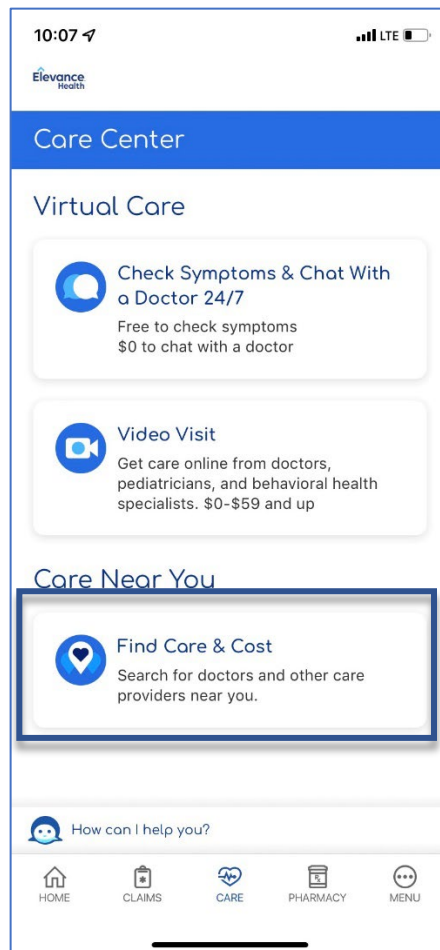

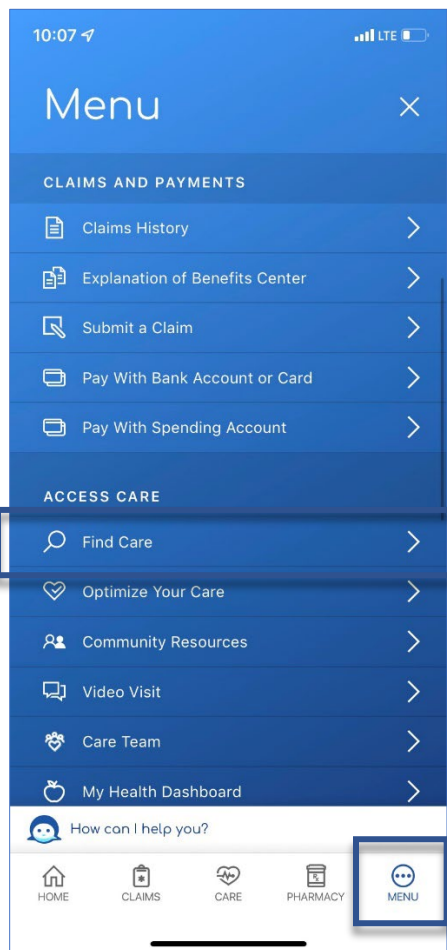

This tool enables members to compare the amount of cost they would be responsible for with respect to a specific item or service.

Members can access the Cost Comparison Tool via the Sydney Health mobile app by following the steps below.

Step 1. Click on the Menu icon on the toolbar to access the Sydney Health main menu. Click “Find Care”.

Step 2. In the Care Center, click “Find Care & Cost”. You should also use this feature to find doctors that are In-Network.

Step 3: In the search bar, enter the type of care you would like to receive. You can search by keyword, physician specialty, or if you know it, the procedure code of the service you will be receiving.

Receive Personalized Matches

Your matches will detail the estimated cost of the procedure at different providers, taking your Deductible and Out-of-Pocket into account.

In the screenshot to the right, for example, a Bunionectomy may cost \$7,152 at one provider but may cost \$4,826 at another provider.

Either way, this patient will pay \$0 because the app recognizes that they have met their Deductible and Out-of-Pocket. (Member responsibility will vary based on their accrued out-of-pocket expenses.)

The screenshot shows the 'Find Care' interface in the Sydney Health app. It lists two providers with their details and price estimates. The first provider is DUBLIN SURGERY CENTER LLC, 8.9 miles away, with an estimated bill of \$4,826, a plan pay of \$4,826, and a patient pay of \$0. The second provider is OHIO STATE UNIVERSITY HOSPITAL, 4.3 miles away, with an estimated bill of \$7,152, a plan pay of \$7,152, and a patient pay of \$0. Both providers are noted as 'Not included in personalized match'. The app also features a chatbot and a bottom navigation bar with icons for Home, Claims, Care, Pharmacy, and Menu.
